# DESIGN DETAILS

## Design Rationale

The proposed building is 5 storeys with 12 units and surface parking on the main level.

## Exterior Concept

The siting and massing of the building is designed to allow natural light to reach all residential balconies and unit fenestrations, while keeping the street front compact. This narrow front facade of the building speaks to the relative sizes of neighboring properties.

## Materials

Paneling, corrugated metal, concrete and wood. The assortment of materials reflects Abbotsford's historic and current buildings and provides a variety of material precedence for future developments!
